

Granny Unit Guys – Garage Series plans

Plan Details

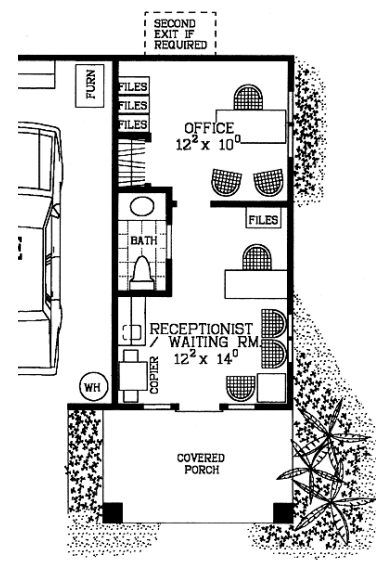

Several configurations

290sq.ft.

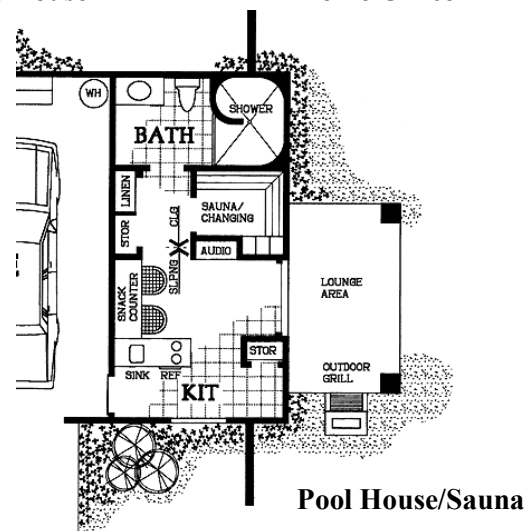

This design will house two vehicles and includes an attached 290sq.ft. flex-space that can be configured into just about anything you dream up. This flexible interior design coupled with our multiple exterior design options will make it right at home next to your existing house. The garage occupies the left half of this design and includes a separate outdoor entrance and a porch can be added to the front or the side of the flex-space.
